

# KS3 ENGLISH EXTENDED LEARNING:

## WHAT IS IT?

Extended learning gives students at Ridgewood School a chance to immerse themselves in the study of their current topics by extending their knowledge. The activities work alongside their current curriculum being taught in school and allow students to engage in exciting, enriching activities chosen by them. Students will find themselves learning more about the topics than what is seen in the classroom and may even find new interests along the way. We encourage you to share your ideas and findings with your teacher as we love to hear about your passions - this may also lead to you receiving Ridgewood Points for taking part in wider opportunities.

## INCLUDED ACTIVITIES:

Read:

Visit the school library and choose a linked book you would like to read.

Research: Use the links and ideas provided to research the topics in more detail.

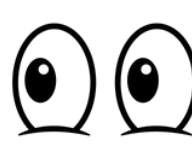

Watch: Use the links and suggestions to watch films/documentaries linking to the topics.

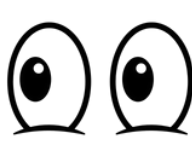

Create: Create guides, models, posters linking to the key ideas.

Visit: Go to places which will give you an insight to the background of the topic you're studying.
