

Year 9 Learning Map

Developing a Website in HTML				
Prior Learning This topic builds on your knowledge of sequencing instructions in blocks of code to lines of code in HTML. It also develops your knowledge of testing a script by running and developing a project.		Current Learning In this topic you will learn how websites are developed using HTML tags. You will learn how the tags are read by internet browsers to display content. You will also create a simple website of your own, using content and styling.		Subsequent Learning This topic will prepare you for sequencing lines of code to layout content, checking code for errors, using correct syntax. It will also support your understanding of how JavaScript is incorporated to add interactivity to a webpage.
Lesson Sequencing		Tier 3 Vocabulary	Wider Reading Opportunities	Ways in which parents/carers can support
Lesson 1	HTML tags	HTML tags scripting editor hyperlink Containers JavaScript Alignment Styling Style sheets	History of HTML HTML Tags	Use the following websites to develop HTML skills: W3Schools
Lesson 2	Styling			
Lesson 3	Images			
Lesson 4	Containers			
Lesson 5	Website completion			
Lesson 6	Website completion			
Lesson 7	JavaScript			
Lesson 8	Evaluation
