

4th September 2026

Dear Parents,

Transition to a New Management Information System (MIS)

We are writing to inform you about an important improvement taking place across all Leger Education Trust academies. As part of our ongoing work to enhance communication, streamline processes, and improve the overall experience for families, we are moving to a new Management Information System (MIS).

From January 2026, the Trust began transitioning away from SIMS and adopting a new MIS called Bromcom. As part of this transition, the current SIMS Parent App will be replaced with Bromcom's parent portal and app, **My Child at School (MCAS)**. This new app will allow you to access key information about your child in one convenient place, including:

- Attendance
- School communications
- Important documents
- Payments (where applicable)

MCAS offers a more modern, user-friendly experience and will help us communicate with you more efficiently.

Over the coming days, you will receive:

1. Instructions on how to set up your MCAS account
2. Your unique login details
3. Guidance on how to download and use the app

We will ensure that all parents and carers have the support they need during this change. Our school offices will also be available to help if you need any assistance once MCAS goes live.

Moving to Bromcom will bring several benefits across the Trust, including:

- A single, consistent system for all academies
- Improved integration with our internal processes
- More efficient communication with families
- A modern platform designed around the needs of schools and parents

We are confident that this transition will result in a better experience for everyone involved.

Yours sincerely,

Adam Dale
Chief Executive Officer
